School Health, Wellbeing and Drug Education Guidelines

Our Vision

At John Tonkin College we believe that health and drug education is integral to the well-being and life long learning of our students. We aim to provide a safe and supportive environment for the school community. We endeavour to engage the whole-school community (families, parents, carers and guardians) and local partnerships in our resilience, wellbeing and health education initiatives. We are committed to providing our students with health, well being and drug education and necessary related intervention across all year levels.

Our School Commitment

Our School Health, Wellbeing and Drug Education Guidelines are consistent with the Principles for School Drug Education. The guidelines promote a whole-school approach to drug education to establish and maintain a safe school environment.

The school staff, students, parents and the wider-school community work together with the aim of preventing and reducing potential and existing risks of harm from drug use. Our guidelines have been developed in consultation with the whole school community to address health, wellbeing and drug education and support interventions in a caring and consistent manner.
John Tonkin College

Curriculum

- Our three-year drug education plan identifies age-appropriate drug education content across all year levels.
- We use evidence-based drug education resources such as Challenges and Choices (www.sdera.wa.edu.au), as well as other relevant, up to date, evidence based programs ie Mind Matters, Beyond Blue, rethinking drinking, smarter than smoking, cannabis and consequences.
- School administration supports staff to deliver appropriate drug education by allowing in-school time for planning, providing professional development opportunities for staff and allocating funds for resources and materials.
- Classroom programs focus on skill development and develop students' knowledge and understanding, attitudes and values and promote help-seeking behaviour.
- Year 8-10 – approximately 30 hours an year
- Year 11-12 – incorporated in courses of study work.
- Learning is extended from the classroom to promote parent support of health, wellbeing and drug education programs (e.g. through the use of information brochures, newsletter, website, student diary)

Ethos and Environment

- A School Health and Wellbeing Team with representatives from the teaching and school health service staff is supported.
- Health, Wellbeing and Drug education is included in whole-school planning.
- All students have the opportunity to participate in health, wellbeing and drug education programs and initiatives which recognise the cultural diversity of our cohort.
- School Health, Wellbeing and Drug Education Guidelines are reviewed on an annual basis in consultation with the school community.
- School administration supports staff attendance at professional development to broaden their understanding and enhance their confidence in working well with health, wellbeing and drug education issues.
- We have developed and implemented Procedures for Incident Management and Intervention Support and these have been communicated through the whole-school community as a part of the School Health, Wellbeing Drug Education Guidelines.

Parents and Community

- The school community are encouraged to engage in health, wellbeing and drug education initiatives and programs.
- Health, wellbeing, drug education information and strategies for the school community are provided on a regular basis through a variety of methods such as the newsletter, website, surveys, parents evening and events and at point of need.
- A Health Expo with dedicated road safety information is conducted on an annual basis.
- SDERA is used to identify resources and agencies that support and complement our school health, wellbeing and drug education initiatives.
- JTC USB policy resource and diary is provided to all new members include our School, Health and Wellbeing Drug Education Guidelines.
• Parents and students are provided with an enrolment package containing school policies and guidelines which they sign off on.
• A number of days annually are set aside for a focus on health, wellbeing and drug education.
• JTC calls on community support agencies to address individual issues in relation to student health and wellbeing. (CAMS, PYMS, Youth focus, Youth Connections, Relationships Australia, Mind Matters, PYRS, Allambee)
CRITICAL INCIDENT MANAGEMENT – JTC

**SITUATION**

**CLASS TEACHER**
Staff member has formed a belief that the student/s has an altered pattern of behaviour related to possible drug use.

13. Promote student involvement and participation.
16. Debrief staff session.

AS A RESULT OF DRUG RELATED INCIDENT
Refer to Student Services or School Administration directly.
In the event of a drug use incident or where a student requires intervention for a drug use issue, the steps outlined in our flow charts for Incident Management and Intervention Support will be followed. In summary:

- the parent/s will be notified by appropriate personnel
- the Principal will consider notifying police if illicit drug use is suspected
- both students and parents will be offered support through appropriate interventions
- the incident or issue will be documented and other relevant agencies involved
- respect will be given to privacy and confidentiality by and for all parties
- the health and well-being of all parties involved will be given priority.

John Tonkin College does not permit students while on school premises, at any school function, excursion or camp to:

- smoke and/or possess tobacco products
- consume, possess or be affected by alcohol
- possess and/or use pharmaceutical drugs for non-medicinal purposes
- possess and/or use volatile substances
- possess and/or use illicit drugs
- possess and/or use drug-related equipment, with the exception of for intended legitimate medicinal use.

All school staff should confirm the procedures regarding the administration of medications.
