

Protective gear for riders

- Helmets - A securely fitted helmet will last 1-5 years, depending on use. They are designed to absorb only ONE impact or drop.
- Eye protection - Ensure you wear quality glasses with open-faced helmets or when riding without a visor.
- Gloves - Should fit securely but comfortably, be reinforced, padded and able to improve your grip.

- Jackets - Choose either leather or non-leather alternative. Select a jacket with built-in shoulder, elbow and back protection that is abrasion-resistant.
- Boots - Buy boots that are light, secure and reinforced.
- Pants - Choose pants that are comfortable and have built-in reinforcement.
