The author would like to acknowledge the contribution made by Kim Chute (Titan Consulting) to the first edition of Challenges and Choices: Resilience, drug and road safety education resource for early adolescence and the inclusion of parts of her work in this publication.

The author has made a comprehensive effort to sight and credit sources. Any omissions detected are not intentional. The author welcomes information to correct any oversights in subsequent editions.

Note: National and State legislation and regulations referred to in this resource were correct at the time of publication. SDERA advises the reader to review relevant websites and documents for legislative and regulatory updates.

**School Drug Education and Road Aware**

School Drug Education and Road Aware (SDERA) is the WA State Government's primary drug and road safety education strategy for all government and non-government schools, and early childhood services. SDERA is a cross-sectoral initiative of the Association of Independent Schools of WA (AISWA), the Catholic Education WA (CEWA) and Department of Education (DOE) and is funded by the Mental Health Commission and the Road Trauma Trust Account.

SDERA aims to prevent road-related injuries and the harms from drug use in children and young people.

SDERA empowers early childhood and school-based staff, parents and carers, and community groups to implement effective resilience, drug and road safety education approaches within their schools and community, through the provision of professional learning, evidence-based resources, and a state-wide consultancy team.
